

MEMO

To: CLNB Families and Employees
From: Sherry Carnevale, Executive Director
Subject: Pandemic planning Update

This is a quick note to let everyone know where we are focusing our energies on your behalf. The Emergency orders have all been extended until further notice. This is NOT the same as the State of Emergency that the whole province is under. This is additional measures that we fall under due to our Ministry funded guidelines.

We will continue to keep families apprised of the timelines as we become informed of what those might look like.

The intent now is to be prepared when the vaccine becomes available to us in the North Bay Parry Sound Health Unit district. We have been in contact with our local Health unit and have been obtaining relevant information about the vaccine and the process so that we are ready when our time arrives. In the next day or so you will all receive the vaccine information and the consent packages.

Once you have received the information and have had time to review the consents, you may have questions. Please connect with the program manager and we will do our best to point you in the direction to have your questions answered by health professionals.

I can certainly appreciate the uncertainty that you may be feeling and we will do everything we can to assist you with your decision.

Sherry Carnevale

Executive Director
