INTÉGRATION COMMUNAUTAIRE

North Bay

## MEMO

To: All Families

From: Sherry Carnevale

Date: March 11, 2021

After another long stretch of being closed to visitors, we are happy to open our doors and welcome people back!

Our Ministry has placed us in the category of “Additional Precautions” which means that visitors are welcome under the following conditions:

- Scheduled, supervised non-essential outdoor and indoor visits with physical distancing are permitted. Physical contact is not permitted. Indoor visits will be conducted within the designated visiting space at the program or at the visitor pod.
- All visits must be scheduled ahead of time, please arrange with the program manager.
- All visitors must wear a medical mask and eye protection. These will be provided by the program.

In addition, based on the public health unit guidelines, anyone who has any symptom of COVID-19 or anyone in the same household that has any symptom, means that everyone within the household must isolate until the person with symptoms receives a negative covid-19 test. Our screening has been adjusted to reflect this change. Thus, when visiting you will be asked if you or anyone within your household has any symptom. If yes, then the visit will need to be rescheduled.

We understand that people may have further questions about the vaccine, (whether it is for your family member or yourself or just in general). We have found a site that hosts a daily question and answer period at 8:00pm from the University of Toronto Via daily Zoom sessions. The link for registration has been included below if you are interested.

We are currently working with the Public Health Unit on determining when vaccines will be available for CLNB and will update you as we receive the information.

Again, thank you for your continued understanding and support as we all do our best to navigate through the pandemic.
