Subject: Vaccine Clinic

We are happy to report that we will be conducting a vaccine clinic for those eligible in our residential supports. The clinic will occur Thursday morning, with the support of the North Bay Health unit. We have been able to coordinate the clinic for the individuals supported by us in a residential program. The vaccinations will be provided to those who have obtained the proper consents.

We will continue to communicate to families information of our progress in facilitating vaccines for others who use our services. At this time we do encourage you to continue to try and coordinate vaccinations on your own behalf.

We sincerely appreciate your support and your patience,

If you have questions please reach out to the manager. We will be updating this information as we receive it.
