Subject: Lockdown and Re-opening

As you are aware the Government has announced its re-opening plan and although there is an outline of the re-opening stages, it does not provide us with any time lines regarding each stage. The other challenge for us is that we have another set of guidelines we are bound by which is not shared with the general public. We usually receive our specific instructions a few days after the public announcement and it usually keeps our restrictions in place for a longer period of time. Sometimes it allows us to follow the same timeline but imposes different precautions that we need to roll out. Unfortunately sometimes it takes us a few days to get all the precautions in place.

We did receive notice that our emergency orders regarding our staffing guidelines will remain in place until June 19th. I am not sure what impact that will have on our re-opening. I am hopeful it is just a precautionary measure.

All of this is just to say, we still do not have any concrete information for you. We still have no idea as to when you will be able to resume life as usual with your loved one. I just wanted to give you the information that we have so that you can adjust your plans accordingly.

We sincerely appreciate your support and your patience,

If you have questions please reach out to the manager. We will be updating this information as we receive it.
