To: ALL CLNB Families & Staff

From: Sherry Carnevale

Subject: Re-opening Plans

Good news, we received some direction regarding family visits within our residential settings. The newest information indicates that we can once again allow outdoor visits beginning June 2. The process for these visits remain in the enhanced precaution level, which means visits can be conducted:

- outdoors,
- by appointment only,
- supervised by staff,
- social distanced only
- masks and goggle/ visors mandatory

We are preparing for your visits making sure our screenings, and staffing are adequate to accommodate your visit. Please reach out to the manager to arrange your visit.

We sincerely appreciate your support and your patience,
